Part 1: Nevada Well Drilling Regulations & Statutes

Part 2: Well Drilling Forms

Part 3: Water Well Drilling Licensing Exam Tutorial

Instructors:

Jake Echeverria, Shannon McDaniel & Tim Wilson, P.E.
Nevada Division of Water Resources

Parts 1 and 2 are completely redesigned presentations focused on the newest regulatory changes that all well drillers must be aware of to avoid demerits against their licenses. Part 3 is a never-before-seen presentation designed to assist in passing the written and oral examination to become a licensed well driller. All water right professionals, water right surveyors, office managers and well drillers are encouraged to attend to become familiar with the newest regulatory requirements and to steer clear of costly and time-delaying mistakes when filing paperwork, such as waivers, NOI cards, well driller's reports, applications to appropriate or change underground water, environmental applications and monitoring well waivers.

Students will gain knowledge that can provide an extra boost to their resumes.

These new classes are also designed to satisfy the regulatory requirement for the two required classes that must be taken every other well driller's license renewal period.

In addition, licensed professionals will be able to earn 4.0 continuing education units (CEUs).

Registration:

Early Registration (by May 31, 2017)

\$100 NWRA Member

\$150 Non-Member

Regular Registration (after May 31, 2017)

\$150 NWRA Member
